

Roll-On Rainscreen™

Most effective & affordable rainscreen furring on the market

Roll-On Rainscreen™ has been installed nationwide over the last 10 years without a single call back.

RAINSCREENS™ PROTECT AGAINST MOLD, ROT & DECAY

Rainscreens protect against moisture intrusion, which causes Mold, Rot, & Decay, all of which lead to:
CALLBACKS, LIABILITIES, & LAWSUITS

Costly exterior repairs far exceed the price of installing your siding with a proper rainscreen system. We don't make this stuff up, Mother Nature does, but our products are tested & proven to protect against it.

A rainscreen is a low cost alternative to trapped moisture problems for the owner, architect and general contractor!

**Don't let this happen to you.
Call us TODAY!**

Take it from building scientist Joseph Lstiburek,
"People continue to put their faith in every kind of cladding material, but in the real world, all claddings leak sooner or later. They always have, and they always will."

PICTURE: Only 8-10 Year old building!

ROLL-ON RAINSCREEN™ VS. THE COMPETITION

WOOD FURRING?

- Absorbs moisture
- Combustible
- Labor intensive to rip & install
- Costly for production
- Covers up more than 20% of wall space

PLASTIC FURRING?

- Crush at fastener, deterring drainage and airflow
- Combustible
- Causes "wavy" siding effect

MESH RAINSCREEN?

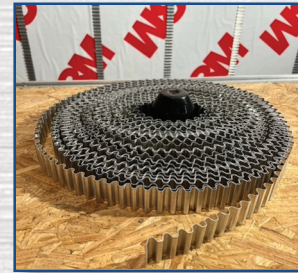

- Causes "wavy" siding effect
- Combustible
- Traps moisture
- Covers up more than 40% of wall space

DRAINABLE HOUSEWRAP?

- Traps moisture at fastener
- Compresses at fastener
- Does not provide an even 3/16" gap

ROLL-ON RAINSCREEN™ SOLVES ALL OF THESE ISSUES

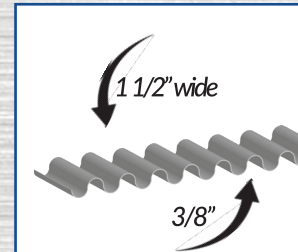

- Over 98% open wall area to drain & dry moisture & condensation fast
- ASTM e84 Class A fire rated
- Compression-tested at 3,000 lbs / foot
- 3/8" air gap eliminates build-out cost
- Green Builder "HOT 50" Product in 2016

See Why Installers Are Making The Switch

- Installs both vertically & horizontally
- Drains both vertically & horizontally
- Lightweight & Easy to handle
- Cut to length, minimizing waste
- 30 year warranty

Roll-On 3D Drawing

- Non-Structural Corrugated Aluminum Furring Strip
- Mill Finish .024" thick
- Minimum 5,000 ft

Starter Strip

- Snap on design makes installation fast & simple
- Slot technology allows proper drainage & airflow
- Will **NOT** clog with dust as screening does

GO GREEN!
Roll-On Rainscreen™
is 100% recyclable

We began studying rainscreens in the early 2000's as a result of the "leaky condo" crisis, and with over 40 years experience in the exterior siding industry, we know the issues builders face daily and how to overcome them!
THAT IS WHY ALL OF OUR UNIQUE RAINSCREEN™ PRODUCTS ARE GUARANTEED TO PERFORM.
KEEPING YOUR BUILDING DRAINED & DRY IS OUR #1 PRIORITY

**WHY DO YOU NEED
A RAINSCREEN?™**

**TO PROTECT YOUR
INVESTMENT**

**TODAY, TOMORROW
& DECADES TO COME**
